

Interactive Touch Screens

1. Create lessons in minutes using images, audio and video from a range of sources including the internet
2. Help students to achieve Key Stages 1, 2 and 3 more quickly through the use of these touch screens
3. Save teachers time and stress in preparing, planning and delivering lessons
4. Lots of happy teachers in schools across the UK
5. Perfect upgrade from your existing projector-based whiteboards
6. Save lessons and email or share them with students more easily
7. Different sizes for different sized rooms
8. Get free on-going training (if required - as they are very user-friendly and intuitive)
9. Easily movable - no cables
10. FREE delivery
11. FREE installation
12. FREE removal and FREE recycling of old equipment
13. 30-Day Money Back Guarantee
14. FREE Oktopus (amazing) software!
15. FREE MeetingPad software - allows wireless mirroring and file sharing between teacher and students to smartphones, tablets, laptops, PC or Mac to the touch screen (with no additional hardware required)
16. FREE UK-based customer support
17. 3-year operating leases mean you are never stuck with out-of-date technology (it's like getting a new mobile phone every 3 years!)
18. 7-year warranty means any repairs are free and replacement touch screens are provided if machine can't be repaired
19. FREE, ongoing, on-demand web-based training (accessible any time, from anywhere).
20. Anti-glare toughened glass - so safe near students!

Smarter Technologies Ltd
putting technology to work

"The touch screen is brilliant. It has excellent clarity and very fast responsiveness. There is no need to calibrate and because no projector is needed. It can be positioned at a perfect height for the children to use."

"Children and staff love it. It is just like having a massive iPad on a wall. Nursery cannot wait for theirs to be installed!"

St Johns CE Primary School

Who are Smarter Technologies?

We have 8 years' experience in helping schools and colleges across the north west make the most of IT.

Through bespoke and carefully-designed IT solutions, we've helped countless teachers improve their productivity, face dreaded Ofsted visits with success, address health and safety issues, and protect their organisations from potential online security breaches.

We talk in plain English, not computer speak!

We are based locally in Heywood.
