

get the best out of IT

Smarter Technologies Ltd
putting technology to work

For all customers:

- Unique service guarantees that give you money back if we do not perform to the high standards you expect;
- Cost-effective rates for high-quality work;
- 15 minute charging increments - if it takes us 30 minutes to provide a solution for you why should you have to pay for an hour's work?

For contract customers:

- 1 month minimum contract term;
- Remote monitoring of key functions on a daily basis;
- Next working day call-out response guaranteed;
- If a resolution can be provided within 15 minutes we make no charge;
- A monthly maintenance visit to carry out standard maintenance tasks (maintenance contracts only).

Maintenance and Support

If you consider the cost of having your own IT support staff against the cost of out-sourcing your IT support then the cost savings are significant, which is the reason more and more organisations are now out-sourcing this function.

Research shows that out-sourcing your IT maintenance and support to a specialist company provides both value for money as well as a better level of service, giving more time for your staff to work on what is most important for your organisation - expanding your services and supporting your customers.

We have created a range of IT maintenance and support services to enable us to take total responsibility for the smooth running of your IT systems, backed-up by our unique guarantees.

Guarantees

At Smarter Technologies we understand that it is difficult for small and medium sized organisations to find good IT maintenance and support services which is why we are happy to provide guarantees:

- If we cannot provide a solution, or the provided solution does not satisfy you, we will make no charges for our time no matter how long we have spent.
- If you have a support contract with us and we do not provide a response to a support request within 1 working day we will not charge you for our contract services during that month.

	Services as Required	On-Call Support	Remote & On-Call Support	Maintenance & On-Call Support	All-inclusive Maintenance & On-Call Support
Service Description	There is no contract period and you contact us as, and when, you require maintenance and support. There is no guaranteed response time but we aim to respond within 1 working day.	This package provides for the daily remote monitoring of one server or Microsoft 365 tenancy, and the remote resolution of support issues for that server or tenancy if they require less than 15 minutes' work. Issues requiring longer than 15 minutes to resolve are charged at the rates shown below. A call-out response, either in person or remotely, within 1 working day for all issues (server, network computer and user) is guaranteed.
